New 2011 products

A modern feeling

Nube's philosophy is that of 'a modern feeling' combining innovative design, high quality, originality, and comfort.

Since the founding of Nube in Italy in 1958 by Mr. Nicoli, this family run business has established a reputation for producing superior contemporary furniture such as sofas, sofabeds, chaise longues, beds, armchairs, storage solutions, low tables, dining tables and chairs.

The key to Nube's success is their emphasis on combining leading edge design and comfort with years of experience and quality control throughout the manufacturing process. Nube on-going commitment to quality is illustrated by their research into new technology and state of the art materials.

Nube is renowned for its 10 year guarantee for the metal frames of its sofas, its ability to produce custom sizes to meet customers' special requirements and its sliding mechanism for its sofas that allow the sofa to be easily converted into a chaise-lounge.

Nube's clients include Planet Hollywood, Porsche, the Mandarin Hotel in Singapore and Fiat.

Top designers

The pursuit of excellence is reflected in Nube's choice of top designers such as Carlo Colombo, Riccardo Bello Dias, Volpato Hatz, Philippe Nigro, Danilo Radice, Mario Ferrarini, Giuliano Cappelletti and Maurizio Salvato.

Designer: Kemistry of Style (KOS)

'Kemistry of Style' is a design partnership employing some of the top Italian designers including Marco Corti and Carlo Colombo. KOS aim to design solutions based on an intelligent analysis of prevailing trends within the market.

Marco Corti is a respected designer with a background in marketing and considerable experience in furniture accumulated over many years with such market leaders as Nube and others including B & B Italia, Cappellini, Olivieri and Poliform.

Carlo Colombo is a world renowned designer having won the 2004 Tokyo Designer of the Year award.

New 2011 products

Book Nest 011 (Design: Carlo Colombo)

The Book Nest sofa incorporates classic design with stylish elegance. The seating consists of soft shape retaining polyurethane cushions and feather filled back cushions. The base consists of a metal frame with interlaced elastic belts. Covers available in fabric (completely removable) and leather.

New 2011 products

Bryant (Design: Marco Corti)

The Bryant is a modular sofa characterised by its modern design and optional rising movement on the back. The seating consists of soft shape retaining polyurethane foam. The base consists of a wooden frame with legs which are not visible. Covers available in fabric (completely removable) and leather. Coffee table can be attached to arm or back of the sofa.

New 2011 products

Diva (Design: Danilo Radice)

Eye catching and extremely comfortable, the Diva sofa has a curved wooden and metal frame for the back and armrests which are padded with shape retaining polyurethane foam. Back cushions are in polyurethane and feather. Removable covers available on cushions, frame cover not removable.
